

*empowering economically disadvantaged and homeless individuals through work and discipleship.*

Good Soil Industries (GSI) is a non-profit temporary employment and landscaping agency that empowers economically disadvantaged and homeless individuals through work and discipleship.

### *the need*

There is an immediate need for employment in Bellflower. Many of our neighbors in Bellflower who are economically disadvantaged or homeless do not have work. In addition to being unemployed, these neighbors have gaps in their resumes which makes finding employment a challenge.

### *workforce development*

GSI would help potentially hundreds of individuals and families in Bellflower who are unemployed or who have limited or incomplete work history to gain access to the workforce and to self sufficiency.
