

::discovering God's heart for your city::

"Seek the peace and prosperity of the city...pray to the Lord for it, for if it prospers, you, too will prosper" (Jeremiah 29:7). An interactive dialogue and introductory training that explores how God leads His people to focus their hearts on the welfare of the city and its transformation. This training deepens understanding of biblical principles for transformation, develops a Kingdom perspective and paradigm for the city, identifies what God is already doing there, helps us to be students of the city and empowers us to discover practical next steps that can be immediately applied to our personal context. We'll also have an opportunity to network/connect/collaborate with others that have a heart for and are involved in their neighborhoods/cities in Alhambra/Monterey Park.
